6. **Salutation:** Dear Student X:

7. **Introduction:** This letter is to inform you that the myth of a paperless office, where you will not be required to produce hard copy letters on letterhead, is a myth.

8. **Body:** While e-mail has largely replaced letter writing for many applications, there remain several reasons for producing a hard copy letter. The first reason is that you are required to write it for this class, as many employers still produce letters as a normal part of business communication, including documentation. Next, we must consider that paper sales in business have increased across the last decade, showing no signs of the decrease we would associate with the transition to the paperless office. Finally, business letters serve many functions, and your proficiency in their efficient and effective production will contribute to your personal and professional success.

9. **Conclusion:** Letter writing is a skill that will continue to be required in the business environment of today and tomorrow.

10. **Close:** Sincerely,
